ASPEK INOVASI

Aspek ergonomi dan estetika

didesain sesuai antropometri tubuh manusia dengan persenti 95 Indonesia. Dengan pertimbangan :

- antropometri saat tangan hendak meletakkan gelas
- jarak pandang mata untuk melihat screen/layar pada waterdispenser
- saat user hendak memasukkan galon ke dalam waterdispenser.

Pemilihan bentuk yang jujur menampilkan kesan simple dengan menambahkan aksen stainless disisi waterdispenser sehingga terlihat lebih kuat dan elegan

Aspek antropometri

Kemudahan Pengaplikasian Inovasidari Segi Material, Proses, Dan Teknologi

Chapter 1 : Introduction

Chapter 2 : Earth

Planet Type: Terrestrial

Our home planet is the third planet from the Sun, and the only place we know of so far that's inhabited by living things.

While Earth is only the fifth largest planet in the solar system, it is the only world in our solar system with liquid water on the surface. Just slightly larger than nearby Venus, Earth is the biggest of the four planets closest to the Sun, all of which are made of rock and metal.
